EXPERIENCE

Starlegends Adventure Inc. — Tacloban City, Leyte
IT Officer & Web Developer — *December 2025 – Present*

- Manage the overall IT environment—infrastructure, networks, systems, applications, and user access—ensuring security, reliability, and continuous improvement of company technology.
- Provide first- and second-level technical support, diagnosing and resolving hardware, software, network, and connectivity issues to minimize downtime.
- Administer user accounts and access rights (creation, modification, suspension, deactivation) in line with company policies and job requirements.
- Maintain and monitor LAN/WAN infrastructure, servers, routers, switches, and firewalls to ensure stable, secure connectivity across operations.
- Implement and support cybersecurity measures, including antivirus, patching, password controls, and incident escalation, to protect company systems and data.
- Manage IT asset inventory, software licensing, and vendor coordination for procurement, repairs, and technical service requests.
- Oversee data backup, disaster recovery, and business continuity procedures to safeguard critical company information.
- Maintain IT documentation and policies, and provide regular reports to management on system status, risks, and improvement recommendations.
- Support IT projects, digital transformation initiatives, and employee onboarding/offboarding, including website development using WordPress, Elementor, and WooCommerce.

Divine Word Hospital — Tacloban, Leyte
Claims Staff — *January 2025 – August 2025*

- Encoded and processed PhilHealth member information and medical claims using hospital and PhilHealth claims systems.
- Verified patient data, case rates, and ICD codes to ensure full compliance with PhilHealth claim requirements.
- Coordinated with physicians, nursing staff, and the billing department to complete and correct claim documentation.
- Monitored claim statuses and followed up on returned or denied claims to reduce reimbursement delays.
- Maintained accuracy and confidentiality of patient records and claims information in accordance with hospital policy.

Freight Process Outsourcing Solutions Inc. — Palo, Leyte
IT Technical Support — *May 2024 – January 2025*

- Installed, configured, and maintained computer systems, printers, and network devices across multiple departments.

• Provided troubleshooting and technical support for hardware, software, and connectivity issues, ensuring minimal downtime.

• Monitored system performance and performed routine maintenance to prevent technical failures.

• Supported data backup and recovery operations to ensure information security and business continuity.

• Documented recurring technical issues and solutions to improve response times and team knowledge sharing.

Rural Health Unit (RHU) Tolosa, Leyte

PhilHealth Konsulta Reimbursement Encoder *June 2022 – August 2023*

• Encoded patient information, medical claims, and ICD codes accurately into the PhilHealth system.

• Verified and cross-checked member data to ensure compliance with PhilHealth guidelines.

• Prepared and submitted electronic and manual claims, ensuring timely reimbursement processing.

• Scanned, filed, and organized supporting documents for efficient record management and audit readiness.

LEADERSHIP & ACTIVITIES

Tolosa Barangay Hall Fiesta Tolosa, Leyte

IT Assistant (Volunteer) *December 2025*

• Set up sound systems, computers, and network connections for the barangay fiesta and provided on-site technical support to ensure smooth audio-visual presentations.
